HOW TO USE YOUR VINYL VAC

STEP 2.

PLACE THE O-RING OVER YOUR VAC HOSE & ATTACH VINYL VAC

Depending on your vacuum, attachments may vary.

Do you have a 1.5" Vac Hose?

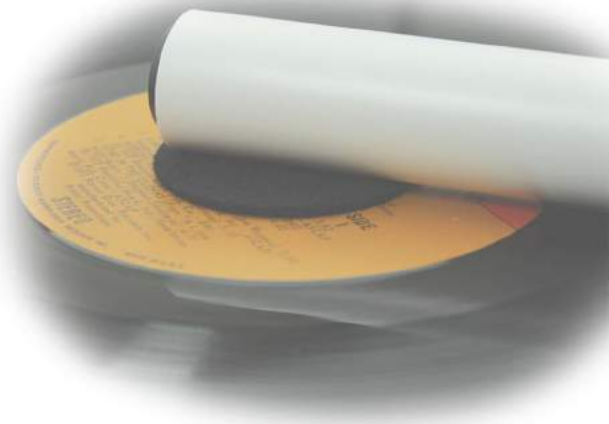

Remove the Bottom Coupling, Attach the O-Ring, Attach your 1.5" Vac Hose.

STEP 3.

PLACE FELT WASHER OVER SPINDLE & SECURE VINYL VAC TO CENTER SPINDLE

The felt washer will protect your record label while vacuuming. If you have a tall spindle you can now remove it or position the Vinyl Vac beside it. (with the felt washer under the Vinyl Vac.)

STEP 4.

TURN ON YOUR VAC

We recommend you rotate your old turntable or lazy susan in both directions slowly, 2-3 times for a deep extraction. **TIP:** Always use an anti-static brush before each play.
